

Marseille

Colocate your IT infrastructure at the heart of the content hub

Our MRS1 data centre provides the latest secure, scalable infrastructure for mission-critical IT systems, with a wide range of connectivity solutions. Located in the city centre, MRS1 offers 2N+1 UPS power and N+1 cooling, as well as alarm and monitoring systems.

Facility

- 6,200 sqm of maximum equipable space
- Located in the city centre
- Two minutes' walk from the metro station and less than one minute from the bus stop
- 2N redundant design architecture allowing maintenance operations with no service interruption

Interconnection

- Dual-entry fibre into the building
- Access to more than 190+ connectivity providers
- Direct access to France-IX, DE-CIX, NL-IX, Hopus, BB-IX, NetIX IX exchanges

- Direct access to submarine cables to Africa, the Middle East and Asia
- Access to IP single homing or multihoming on demand

Services

- Cabinets, Cages and Private Rooms
- Remote Hands and Eyes: 24x7, 365
- Full range of Digital Realty connectivity
- Cloud Connect: establish private connections to multiple clouds
- Extendable to more than 100 data centres across Europe via a single service contract
- Control your encryption keys with Digital Realty Key Guardian
- Metro Connect: connectivity services between our Marseille data centres
- IX-API to deliver on demand remote peering service

MRS1 – at a glance

- Connected to Digital Realty campus Marseille's data centres
- Direct access to 16 submarine cables to Africa, the Middle East and Asia
- Access to 190+ connectivity providers and to France-IX, DE-CIX, NL-IX, Hopus, BBIX and NetIX
- 6200 sqm of maximum equipable space
- Security staff on site 24x7, 365
- 16 MW grid connection
- Advanced fire detection and suppression systems

MRS1: Technical specifications

Power	<ul style="list-style-type: none"> • 16 MW grid connection • High-density power configurations up to 1.5 kW/sqm • Up to 99.999% availability SLA • 2N+1 UPS redundancy • N+1 backup generators, supporting 72 hours autonomy at full capacity • Full range of AC and DC output currents
Controlled Environment	<ul style="list-style-type: none"> • Very Early Smoke Detection Apparatus (VESDA) • Optical detectors in the room every 9 sqm and in the technical floor • Inert gas fire suppression system • Minimum N+1 CRAC redundancy per customer room • Entire facility infrastructure monitored 24x7, 365 in real-time (Cooling towers, Chillers, CRAC units, Fire Panels, Generators, UPS in 2N+1 configuration)
Local accreditations	<ul style="list-style-type: none"> • ISO 14001 accredited for environmental management system certification for all our data centres in France and our Parisian's headquarters • PCI-DSS Certification related to data security for customers for all our data centres in France • Personal health data housing for all our data centres in France • ISO 45001 certification for management systems of occupational health and safety • ISO 50001 (certification AB certification) for our energy management system • Ecovadis / CSR Gold Certification, a service to assess the main CSR impacts of our company.
