

Introducing ZUR2: Zurich's safest, most scalable and best-connected data centre

If your business wants to connect, exchange and transform, choose ZUR2.

ZUR2 is the latest addition to the Interxion data centre campus in Switzerland. Strategically positioned just 5 minutes from Zurich Airport, our state-of-the-art ZUR2 Campus introduces 6,600 m² of data centre space and provides access to more than 40 carriers/ISPs and many cloud providers.

Join one of the safest and most flexible data centres for your mission-critical applications. With us, you benefit from the highest safety standards and latest technology, which guarantee availability and performance.

ZUR2 was designed with a focus on sustainability and modular architecture. Cost-effective cooling, advanced early fire and water detection systems, a multi-layer security concept protected by seven physical security barriers, and the most advanced alarm and surveillance systems make ZUR2 the safest data centre in Switzerland.

Innovators interconnect at Interxion

Enhance competitiveness with the right infrastructure, in the right place.

Our Zurich campus attracts a diverse range of businesses making it easy to interconnect with industry peers, partners and suppliers to drive differentiation and find competitive advantage in today's crowded digital marketplace. Direct access to the most important cloud platforms including AWS, Google, MS Azure, Oracle and IBM and many local clouds as well as free connections to the SwissIX, Swiss Internet Exchange Point, make ZUR2 the place to build your perfect business platform.

ZUR2 – at a glance

- Zurich – located in the heart of Europe
- 6.600 m² customer space
- 12 MW power
- 99,999% availability SLA
- Access to +40 Carriers/ISPs
- 7 physical security layers
- Direct and free access to SwissIX
- 100% renewable energy
- 24/7 technical support

About Interxion

Interxion (NYSE: INXN) is a leading provider of carrier and cloud-neutral colocation data centre services in Europe, serving a wide range of customers through over 50 data centres in 11 European countries. Interxion's uniformly designed, energy efficient data centres offer customers extensive security and uptime for their mission critical applications. With over 700 connectivity providers, 21 European Internet exchanges, and most leading cloud and digital media platforms across its footprint, Interxion has created connectivity, cloud, content and finance hubs that foster growing customer communities of interest.
